Before search

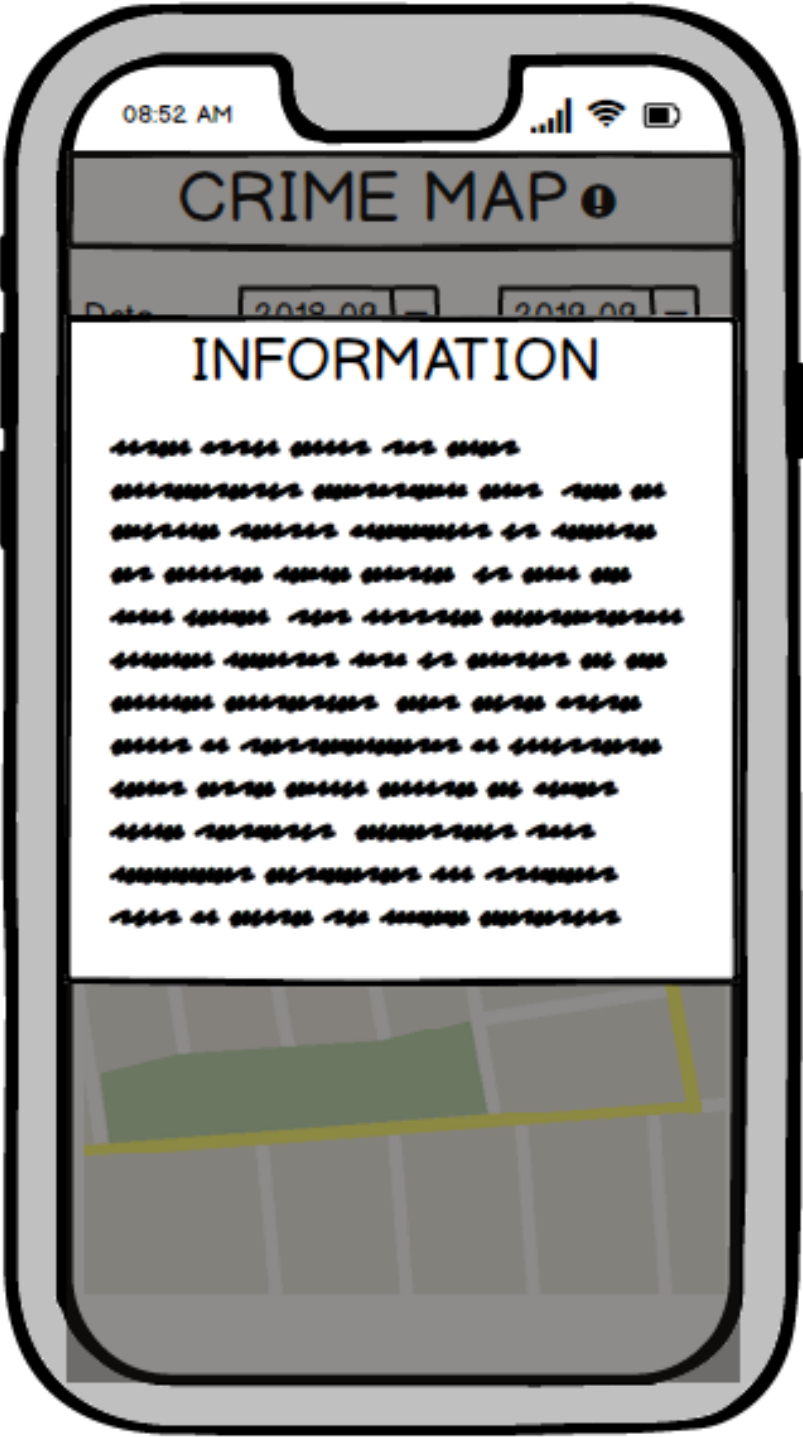

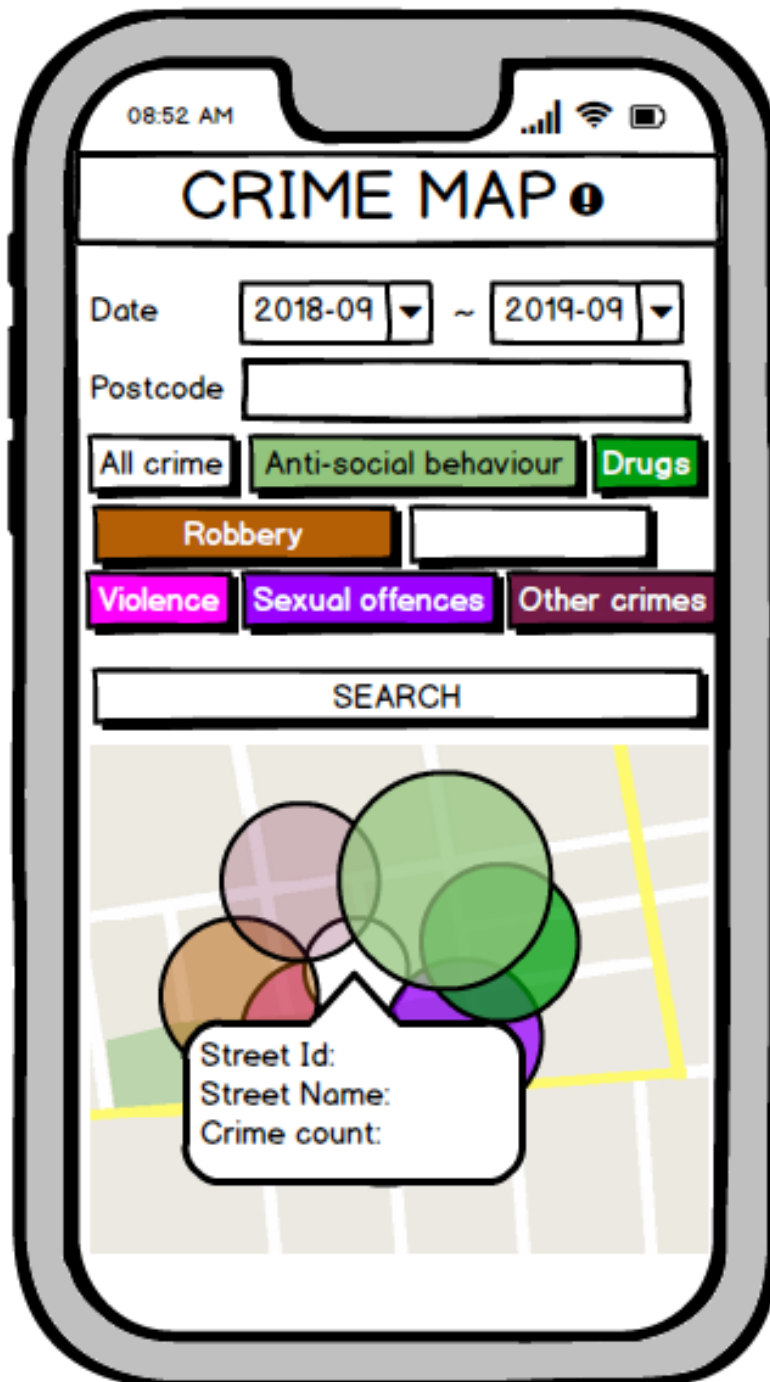

Shows search form and map for each side; date, postcode, crime categories and search button on the left side.If a user doesn't input postcode, GPS will catch the current location of the user.

**Information**

Shows the information on the site if exclamation mark is clicked.

After search

Shows results on the map after searching with dates and postcode.Circles are categorised by how many each crime happened.A user can choose crimes which s/he wants to see multiply by clicking buttons such as 'Drugs'.The modal which shows an analysis would be displayed if a user clicked the circle.
